

Application Tips

DIAMOND PRO Paint Protection Film

Application Tips

- Soap Ratio: Light colours 3-4 drops, Dark colours 5-6 drops per litre of water (Where Required).
- Alcohol Ratio: 30% Alcohol – 70% Water (Where Required).
- On tight areas such as inside the door edges use 3M Tape Primer to help adhesion.
- On tight areas such as around bumpers and fog lamps use a heat gun to gently warm the film using the alcohol solution as required.

Recommended Products

- 3M Tape Primer
- Johnsons Baby Shampoo
- Klean Strip Denatured Alcohol
